INDEX OF AUTHORS

ANDERSON, R. G. W. 1
AUBIN, J. E. 233

BELL, P. R. 125
BENNETT, M. D. 173
BRADBURY, P. C. 245
BROWN, M. S. 1
BROWN, P. 287

CHONGCHIRASIRI, S. 147
COLOMBO, R. 263
CONNOR, N. S. 233

DEXTER, T. M. 155
DICKINSON, H. G. 191
DONATH, E. 113

FELTKAMP, C. A. 271
FLOYD, G. L. 21

GALLAGHER, J. T. 155
GARCIA-SEGURA, L. M. 1
GINGELL, D. 101, 113
GOLDSTEIN, J. L. 1

HARPER, P. A. 287
HESLOP-HARRISON, J. S. 173
HOLLIDAY, R. 77
HOOPS, H. J. 21
HORNER, H. A. 135
HUSCHTSCHA, L. I. 77

JULIANO, R. L. 287

LACKIE, A. M. 181
LAIRD, S. 125

MACGREGOR, H. C. 135
McBRIDE, N. K. 223

NAKORNCHAI, S. 147
NILSSON, J. R. 209

ORCI, L. 1

PICTON, J. M. 303

SAKAI, M. 69
SATHITUDSAHADKORN, C. 147
SCHUSTER, F. L. 311
SHEFFIELD, E. 125
SHELDON, J. M. 191
SHINAGAWA, A. 69
SMITH, J. B. 173
SODEK, J. 233
SPOONCER, E. 155
STEER, M. W. 303

THURSTON, C. F. 223
TOWNSEND, J. W. 245
TRAUB, P. 43
TWOMEY, R. 311

VAN DER WAERDEN, A. W. M. 271
VAN DEURS, B. 209
VORGIAS, C. E. 43

WARD, J. P. 173
WESTFALL, J. A. 245
WOLF, H. 101

YUTHAVONG, Y. 147

INDEX OF SUBJECTS

Actin
in *Xenopus* yolk platelets: COLOMBO 263
Adhesion
fibronectin-independent, of fibroblasts to extracellular matrix material: HARPER, BROWN & JULIANO 287
of enzyme-treated red cells to hydrocarbon interface: DONATH & GINGELL 113
of red cells to various substrata, effect of ionic strength: WOLF & GINGELL 101
Affinity chromatography
in study of intermediate filament assembly: TRAUB & VORGIAS 43
Amphibian embryo
control of morphology of injected sperms by cytoplasmic activity: SAKAI & SHINAGAWA 69
Amphibians
C value and cell volume in evolution and development: HORNER & MACGREGOR 135
Apogamous fern
ultrastructure of sporogenesis: SHEFFIELD, LAIRD & BELL 125
Astrephomene
flagellar apparatus and motion: HOOPS & FLOYD 21

Bone marrow
cultured mouse, synthesis of glycosaminoglycans: GALLAGHER, SPOONCER & DEXTER 155

Calcium regulation
of flagellation in *Naegleria gruberi*: SCHUSTER & TWOMEY 311
Cationic ferritin
in study of pinocytosis in *Tetrahymena*: NILSSON & VAN DEURS 209
Cell adhesion
by insect haemocytes, effect of charge and substratum wettability: LACKIE 181
Cell volume
significance in evolution and development of amphibians: HORNER & MACGREGOR 135
Cholesterol
in junction formation between cultured rat hepatocytes: FELTKAMP & VAN DER WAERDEN 271
synthesis in endoplasmic reticulum of UT-1 cells: ANDERSON, ORCI, BROWN, GARCIA-SEGURA & GOLDSTEIN 1
Coated pits
in *Tetrahymena*: NILSSON & VAN DEURS 209
Coated vesicles
in *Tetrahymena*: NILSSON & VAN DEURS 209
Collagen
type I, expression in fibroblast-like cultured porcine connective tissue cells: CONNOR, AUBIN & SODEK 233
Colonial green algae
ultrastructure and development of flagellar apparatus and motion: HOOPS & FLOYD 21
Complementary DNA/RNA hybridization
in *Chlorella fusca*: MCBRIDE & THURSTON 223
Cytoplasmic cycle
controls sperm morphology in *Xenopus* embryos: SAKAI & SHINAGAWA 69
Cytoskeleton
in pollen wall of *Lilium*: SHELDON & DICKINSON 191
***C* value**
significance in evolution and development of amphibians: HORNER & MACGREGOR 135

Desmin
in formation of intermediate filaments: TRAUB & VORGIAS 43
Development
of nematocyst–taeniocyst complex in *Polykrikos*: WESTFALL, BRADBURY & TOWNSEND 245
Dictyosomes
in secretory activity of pollen tubes: PICTON & STEER 303
Dinoflagellate
ultrastructure of nematocyst–taeniocyst complex: WESTFALL, BRADBURY & TOWNSEND 245
DNA density
in mitotic and meiotic chromosomes of plants and animals: BENNETT, HESLOP-HARRISON, SMITH & WARD 173
Dryopteris borreri
ultrastructure of sporogenesis: SHEFFIELD, LAIRD & BELL 125

Electron microscopy
in ultrastructural study of *Polykrikos*: WESTFALL, BRADBURY & TOWNSEND 245
of junction formation between cultured rat hepatocytes: FELTKAMP & VAN DER WAERDEN 271
Embryogenesis
in amphibians: HORNER & MACGREGOR 135
Encapsulation
by insect haemocytes, effect of substratum wettability and charge: LACKIE 181
Endoplasmic reticulum
in UT-1 cells, ultrastructure and response to cholesterol: ANDERSON, ORCI, BROWN, GARCIA-SEGURA & GOLDSTEIN 1
Extracellular matrix
material adhesion to fibroblasts: HARPER, BROWN & JULIANO 287

Fibroblast-like cells
cultured from porcine connective tissue express collagen and fibronectin: CONNOR, AUBIN & SODEK 233
Fibronectin
expression in fibroblast-like cultured porcine connective tissue cells: CONNOR, AUBIN & SODEK 233
-independent adhesion of fibroblasts to extracellular matrix material: HARPER, BROWN & JULIANO 287
Flagellar apparatus
ultrastructure and development in colonial green algae: HOOPS & FLOYD 21
Flagellar motion
in colonial green algae: HOOPS & FLOYD 21
Flagellation
in *Naegleria gruberi*, calcium regulation: SCHUSTER & TWOMEY 311

Glucose-6-phosphate dehydrogenase
in growth of SV40-transformed human diploid MRC-5 fibroblasts: HUSCHTSCHA & HOLLIDAY 77
Glycosaminoglycans
synthesis by mouse bone marrow cell cultures: GALLAGHER, SPOONCER & DEXTER 155

Haemocytes
of insects, adhesion and encapsulation of foreign material: LACKIE 181
Human fibroblasts
diploid MRC-5, growth of SV40-transformed: HUSCHTSCHA & HOLLIDAY 77

Hybridization kinetic analysis
in *Chlorella fusca*: MCBRIDE & THURSTON 223

Indirect immunofluorescence
in study of vitellogenesis in *Xenopus*: COLOMBO 63
Interferometry
in study of adhesion of red cells: DONATH & GINGELL 113
of live red cells: WOLF & GINGELL 101
Intermediate filament assembly
involvement of N-terminal polypeptide of vimentin: TRAUB & VORGIAS 43

Junction formation
between cultured rat hepatocytes: FELTKAMP & VAN DER WAERDEN 271

Kinetic complexity of mRNA
in *Chlorella fusca*: MCBRIDE & THURSTON 223

Lilium
patterning in the pollen wall: SHELDON & DICKINSON 191

Malaria
in mouse red cells, membrane protein changes: NAKORNCHAI, SATHITUDSAHAKORN, CHONGCHIRASIRI & YUTHAVONG 147
Meiosis
DNA density of metaphase chromosomes in plants and animals: BENNETT, HESLOP-HARRISON, SMITH & WARD 173
Membrane fusion
in mouse red cells infected with *Plasmodium berghei*: NAKORNCHAI, SATHITUDSAHAKORN, CHONGCHIRASIRI & YUTHAVONG 147
Membrane recycling
in secretory activity of pollen tubes: PICTON & STEER 303
Metaphase chromosomes
of plants and animals, DNA density in mitotis and meiosis: BENNETT, HESLOP-HARRISON, SMITH & WARD 173
Microenvironments
in role of cellular matrix in haemopoiesis: GALLAGHER, SPOONCER & DEXTER 155
Mitosis
DNA density of metaphase chromosomes in plants and animals: BENNETT, HESLOP-HARRISON, SMITH & WARD 173

Naegleria gruberi
calcium regulation of flagellation: SCHUSTER & TWOMEY 311
Nematocyst–taeniocyst complex
development and extrusion site in *Polykrikos*: WESTFALL, BRADBURY & TOWNSEND 245
Nuclear transplantation
in *Xenopus* embryos: SAKAI & SHINAGAWA 69

Pattern formation
in pollen wall of *Lilium*: SHELDON & DICKINSON 191
Pinocytosis
in *Tetrahymena*: NILSSON & VAN DEURS 209
Pollen tubes
of *Tradescantia*, membrane recycling and control of secretory activity: PICTON & STEER 303
Pollen wall
determination of patterning in *Lilium*: SHELDON & DICKINSON 191
Poly(ethylene glycol)
-induced fusion of malaria-infected mouse red cells: NAKORNCHAI, SATHITUDSAHAKORN, CHONGCHIRASIRI & YUTHAVONG 147
Polykrikos
ultrastructure of nematocyst–taeniocyst complex: WESTFALL, BRADBURY & TOWNSEND 245

Red cells
enzyme-treated, adhesion to hydrocarbon interface: DONATH & GINGELL 113
interaction with solid/liquid interfaces: WOLF & GINGELL 101
Reductase
in cholesterol metabolism in crystalloid endoplasmic reticulum of UT-1 cells: ANDERSON, ORCI, BROWN, GARCIA-SEGURA & GOLDSTEIN 1

Simian virus 40
-transformed human fibroblasts, limited and unlimited growth: HUSCHTSCHA & HOLLIDAY 77
Sporogenesis
in the apogamous fern, *Dryopteris*; ultrastructure: SHEFFIELD, LAIRD & BELL 125
Substratum wettability
effect on adhesion and encapsulation by insect haemocytes: LACKIE 181
Surface charge
effect on adhesion and encapsulation by insect haemocytes: LACKIE 181

Tetrahymena
coated pits and pinocytosis in: NILSSON & VAN DEURS 209
Transformation
of human fibroblasts, growth: HUSCHTSCHA & HOLLIDAY 77

Vesicles
in patterning in pollen wall in *Lilium*: SHELDON & DICKINSON 191
Vimentin
N-terminal polypeptide in intermediate filament formation: TRAUB & VORGIAS 43
Vitellogenesis
in *Xenopus*: COLOMBO 263

Xenopus
actin in yolk platelets: COLOMBO 263
